The Changing Face of the College Population

The National Institute of Independent Colleges and Universities recently published an important research report: "Guess Who's Coming to College: Your Students in 1990". Highlighting the report were a number of trends that will have important implications for higher education, important implications for the small liberal arts colleges in America, important implications for Wesleyan.

By now everyone has been made painfully aware of the deep, sustained decline in the number of traditional students available for colleges, the first decline ever in America's educational history.

Colleges and universities must endure this decline until 1998, when there will be an increase in high school graduates as a result of a rise in the birth rate since 1979.

There is some good news for "sun belt" colleges where these coming increases will be most evident. This will be due to the significant population shift to the "sun belt" states projected for the next two decades.

Other significant factors were revealed in the cited trends that seriously must be considered as colleges and universities engage in strategic planning to insure a strong future for their institutions. For example, a distinctive

change is reflected in the age of those enrolled in colleges. This change is one of the most significant shifts in higher education since the 1960's. Astute campuses are busy "retooling" to meet the educational demands of this emerging non-traditional age college student. Campuses now are educating corporate executives, engineers, military officers and middle-aged women who are preparing for new careers. A significant number of retirees are beginning to enroll in courses on campuses across the country.

The "life long learning" concept is here to stay, a refreshing and challenging concept upon which colleges and universities can build. This jump in the number of adults on campus has dictated the need for more courses being offered in the evenings and weekends.

One of the most startling trends revealed in the report deals with the aggressive, service oriented "third sector" of higher education. Industry, the military, government and voluntary agencies are now educating three out of four adults, while the traditional colleges and universities are educating only one in four. It is thought by many that this "third sector" has emerged in the last twenty years because higher education failed to anticipate the

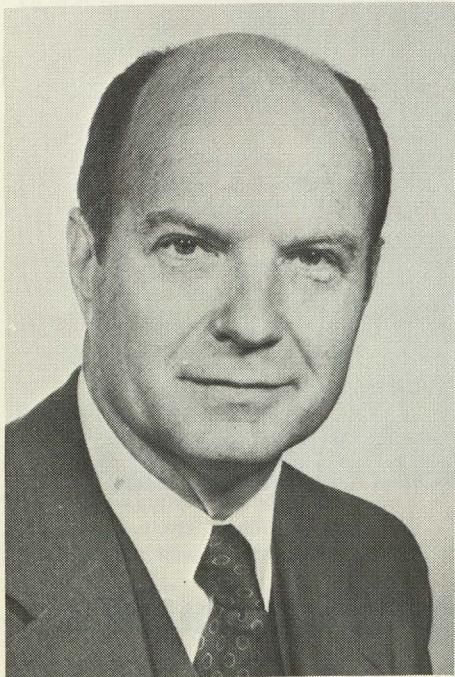

educational needs of the emerging adult student population.

Having been a powerful force for equality in the education of women, it is rewarding for women's colleges such as Wesleyan to witness the rapid rise of women students on the nation's campuses. In the last thirty years the number of women seeking a college education has risen to over one-half of the total, up from one-third in 1955.

Through the newly established "Center For Continuing Studies" at Wesleyan, the college is seeking to capture a significant number of adult women who are returning to college. The center is offering evening and weekend classes to increase access to higher education for the non-traditional women students. These women will play a significant part in future enrollment trends at Wesleyan and at other women's colleges.

Changing faces for Wesleyan's college population? Yes, changing faces and changing challenges. From its very inception Wesleyan sought to meet the needs of women in higher education. These new trends simply signal important new challenges in women's education. Challenges of the caliber that our founders met 147 years ago when Wesleyan was chartered.

Three New Trustees Elected

J. Alan Neal

Hazel Holmes Burns

Sandra Bell Shipp

J. Alan Neal, president and chief executive officer of the Trust Company Bank of Middle Georgia, and Hazel Holmes Burns, a Wesleyan alumna of Macon, were elected to the Wesleyan College Board of Trustees at the winter meeting February 17, 1983. Wesleyan alumna, Sandi Bell Shipp, was elected as an Alumna Trustee at the May 20 meeting.

Neal, a graduate of Georgia Institute of Technology and Georgia State University, earned his basic, standard and advanced certificates in commercial banking from the American Institute of Banking.

He is president of the Wesleyan College Board of Associates, and serves as a director of the Greater Macon Housing Commission, the Macon Chamber of Commerce and the Rotary Club. He is a trustee and the treasurer of Forward Macon, and a 1982 director of the United Way in Macon.

Mrs. Burns, a 1941 Wesleyan graduate, in 1982 was the first woman president of the United Way of Bibb County. She was the first woman senior warden in the Diocese of Atlanta, representing St. Paul's Episcopal Church, and she is a member of the Diocesan Executive Board of the Diocese of Atlanta.

She is a member of the board of Washington, Memorial Library, a member of the Junior League of Macon and past president of the Macon-Wesleyan Alumnae Association.

Mrs. Burns also is a former chairman of the board of Burns Brick Company.

A 1966 graduate of Wesleyan, Sandi Shipp, of Macon, was president of the National Wesleyan Alumnae Association from 1976-79, and is a past president of the Macon Alumnae Association. She is active in community and Wesleyan activities, and she organized the Kitchen Karavan in 1972 to raise money for the Macon Endowed Scholarship Fund. She is on the Task Force for Financial Aid at Wesleyan and a member of the Finance Committee of the Wesleyan Alumnae Association.

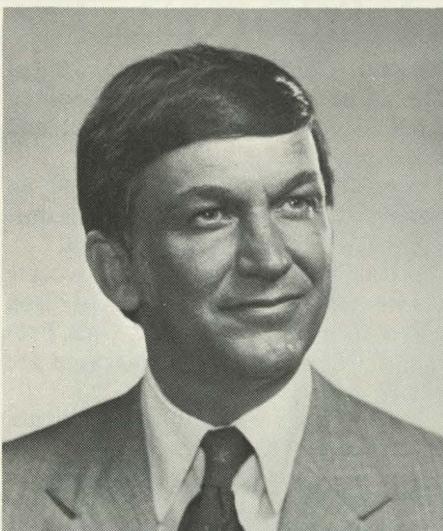

In the community, she is an active board member of the Middle Georgia Symphony Guild, the Macon Little Theater, the Morning Music Club, and a member of First Presbyterian Church.

Wesleyan's 22nd President Resigns

On July 1, Wesleyan College bids farewell to Dr. Fred W. Hicks. Dr. Hicks, who has been president of the College since August of 1979, will leave Wesleyan to accept a post as chancellor of Coastal Carolina College, Myrtle Beach, of the University of South Carolina. Dr. Hicks announced his resignation February 17.

Upon arriving at Wesleyan in 1979, Dr. Hicks embarked upon a campaign for strong financial management. For the third consecutive year, the College

has ended the fiscal year with a balanced budget and a moderate surplus. He has directed the surpluses to be used to

create a new major academic area, computer science, and to increase faculty salaries. Under his direction, the College's endowment was reinvested for maximum growth. As president, Dr. Hicks reactivated the College's Development Office, and the results have produced 1.5 million dollars in gifts and grants during the last fiscal year.

"Having achieved the goals I set forth for myself and the College nearly four years ago," he said, "it is my belief that this is the best time for Wesleyan to obtain new leadership."

"The College is under the direction of a strong Board of Trustees," he continued, "and the Middle Georgia area actively supports Wesleyan in all its endeavors. With their support and the continued loyal interest of Wesleyan's alumnae, the College will continue to experience both financial and academic success."

Presidential Search Committee Making Progress

lege; and through contacts initiated by members of the Trustees Search Committee and the advisory committees.

The Trustees Search Committee is comprised of Mrs. Valeria McCullough Murphey, '48, chairman of the committee; Frank Jones, chairman of the Board of Trustees; Mrs. Elsie Lowden Hambright, '34; William A. Fickling, Jr.; Lovick Corn; and Jack Rogers. Randolph Thrower, former chairman of the Board of Trustees, and Joel D. McDavid, Bishop of the North and South Georgia Conferences of the United Methodist Church, are serving as consultants.

The Search Committee receives support from five advisory committees selected from members of the faculty, administration, alumnae, students, and Board of Associates. Advisory committee chairmen Jeanette Lang, alumnae; Rose Mary McKelvey, administration; Ann Munck, faculty; Mary Ann Cunningham, students; and Alan Neal, Board of Associates, meet weekly with their committees to review and evaluate resumes and applications. These chairmen meet regularly with the Trustees Search Committee to bring

recommendations and suggestions before the committee. Eventually, this group will recommend a select group of the top presidential candidates. The Board of Trustees will then make a final decision.

To date, 167 nominations have been received. Of these nominations, 53 are women and 114 are men.

"I've been greatly impressed with the calibre of the nominees, based on their vitae," Mrs. Murphey says. "The majority of applicants are well qualified, outstanding men and women. It is our task to find the individual best qualified to meet Wesleyan's needs and aspirations."

Since its appointment, the Trustees Search Committee has established an organizational structure, appointed the advisory committees, adopted a presidential profile, agreed on a compensation package, and established a timetable for the completion of the search. The Committee hopes to have a recommendation for the Board of Trustees by July 1.

Valeria McCullough Murphey
Chairman, Trustees Search Committee

Substantial progress is being made in the search for a new president for Wesleyan College since the Trustee Search Committee was appointed in mid-March.

Applications and nominations have been solicited in a variety of ways: by an advertisement that appeared in three issues of **The Chronicle of Higher Education**; from alumnae, faculty members, administrators, students, trustees, and other friends of the Col-

Dare to Walk Proudly

Rep. Eleanor L. Richardson

Wesleyan College celebrated its 143rd commencement on May 7. Representative Eleanor L. Richardson, Georgia State House of Representatives, gave the commencement address.

A member of the Georgia House since 1974, Mrs. Richardson is former president of the League of Women Voters of Georgia, former chairman of several organizations, including Georgians for Quality Education, DeKalb County Community Relations Commission, and the Community Development Advisory Council, Atlanta Regional Commission.

She now serves on the Board of Higher Education and Ministry of the

General Conference of the United Methodist Church, the Metropolitan Area Mental Health Association, and many others.

Mrs. Richardson was awarded an honorary Doctor of Public Service during the Wesleyan commencement.

An articulate and energetic advocate of women's rights, Mrs. Richardson chose as her topic "Dare to Walk Proudly." The following paragraphs are excerpts from her speech.

"Wesleyan's educational experience is indeed a true commencement, for central to the educational philosophy is the conviction that the quest for knowledge and the resulting joy of discovery are fulfilling life-long pursuits." (Wesleyan's Mission)

...great risks and challenges face us today...because I truly believe along with your parents, family, friends, and faculty that you are Very Important Persons, I have suggested that you dare to walk proudly as you continue your quest.

I dare you to remember that you will live up to being born as you seek to work and serve others no matter where you may be ...I dare you to have courage.

Margaret Truman has written a book **Women of Courage**. She has chosen twelve women out of many from revolutionary times to the present. Early in our history we needed physical courage to conquer a wilderness and make a revolution. The nineteenth century posed problems more of a moral nature and Margaret Truman describes how American women provided the leadership for that time of humanitarian movements. Some of her choices are well known -Dr. Elizabeth Blackwell and Susan B. Anthony, but there are other lesser known women like Prudence Crandall who pioneered education for black women in Connecticut and Kate Barnard who fought for the rights of Indian children in Oklahoma, and who at 32 was the first woman elected to statewide office in the United States.

Most of them, however, were not members of the 'Establishment.' They did not have political power bases to sustain them - most of them did not

even have voting rights. They met their challenges alone, often in the face of savage criticism. Many never reached the goal of righting the wrong they were challenging - but history did. It is a rich heritage.

Margaret Truman further writes, 'These American women proved that courage as an individual quality of the mind and heart depends more on character and conscience than it does on sex.' And she goes on, 'I believe that there is a tremendous amount of work still to be done by us - as women of courage. Not all will be famous doctors or reach the U.S. Senate, but the same kind of courage can be demonstrated. Whether the injustices we fight are public or private, whether we seek excellence in a career or in the home, whether we aspire to influence the thinking of the entire country or just a few people gathered around our dinner tables, we can bear witness to the tradition of feminine courage.'

I dare you to seek mentors and to be one yourself. In this seeking, you will find your place of service as you join with others. No one person...can accomplish too much without forming ranks with others. Networking is a good system for women.

I dare you to approach the rough, tough world outside by remembering history...Peggy Shriver writes, 'We must connect with our past in order to move beyond it, to redeem it through the power of forgiveness, and to be strengthened for the task of building a secure and worthy future.'

I dare you...to be part of building that future.

...in the present we dare to work and serve with many groups to accept the dare and reach a goal. It often takes a long time. For instance tough legislation takes such a long time. One of my bills took three years, and another nine years, to correct injustices...Quiet persistence often is spearheaded by one person who never lets an idea go, if it is right...Women have a special quality of caring. You will have more power as there will be more of you trained in ways we were not.

"Dare to walk proudly - then with courage, with hope, with faith."

Wesleyan's Chinese Connection

Wesleyan's long tradition of educating women from China has been re-established this year by freshman Jannie Chien. Her attendance continues a tradition begun by the Soong sisters many years ago.

Jannie, a 23-year-old music student, is the first student from The People's Republic of China to attend Wesleyan since the communist takeover of China in 1949.

She chose Wesleyan as the college she would like to attend much due to the influence of her great aunt, Tsoo-Yi Zia, who graduated from Wesleyan in 1933. Tsoo-Yi Zia, who now teaches English in a Shanghai High School, often talked with Jannie of her fond memories of attending college in the United States.

Last summer, Jannie and her aunt had the pleasure of spending time with another Wesleyan alumna, Lorraine Williams Garrett of Mullins, S.C., a 1930 graduate. Mrs. Garrett visited China as part of a 50-day rail tour of Europe and the Far East.

Mrs. Garrett wrote of her visit with Jannie and her aunt in a letter last summer.

"I was so pleased," Mrs. Garrett writes, "when Tsoo-Yi Zia said she was so excited about seeing a Wesleyan that her whole family helped her come for dinner with me in spite of her broken foot."

Tsoo-Yi Zia and Jannie arrived for dinner in a covered rickshaw pulled by a bicycle, driven by Jannie's father, Chien Tsoo-Wu, Mrs. Garrett writes. She and her cousin, Hallie, were given rides around the court yard having

Lorraine Williams Garrett, '30, Jannie Chien, and Tsoo-Yi Zia, '33, visited last summer in China prior to Jannie's first year at Wesleyan.

"great fun." Mrs. Garrett says she had a "delightful visit" over dinner.

According to Mrs. Garrett, Tsoo-Yi Zia graduated from the McTyeire School for Girls in Shanghai before pursuing a degree at Wesleyan. Now the Third Senior High School of Shanghai Municipality, McTyeire was founded by Wesleyan alumna Laura Haygood, class of 1864.

This year the school returned to being a school for girls, after being coeducational for years, Mrs. Garrett says. Largely because of its connection with Wesleyan, many McTyeire graduates went on to attend college here.

"Tsoo-Yi Zia said her father, a distinguished philosopher and writer, sent her to McTyeire and Wesleyan because he wanted her to have a good education. After study at Scarritt College in Nashville, Tennessee, and The University of Chicago, she received a master's degree and returned to China to become general secretary of the Shanghai YWCA.

"Later she was made head of the Cities Department of the YWCA and renewed her friendship with Ada Lee."

In addition to Tsoo-Yi Zia, the Soong sisters were graduates of the McTyeire School. Ada Lee, class of 1930, taught at McTyeire during the 1930s.

Tsoo-Yi Zia continued teaching English, except during the 10-year cultural revolution which began in 1966. After her marriage, she taught at Cheloo University where her husband was dean.

"Her youngest son is now studying at Baylor in Texas and another son is studying in France on a Chinese government program."

Mrs. Garrett has helped Jannie adjust to life in the United States as a result of last summer's visit. Jannie has spent some vacation with Mrs. Garrett in Mullins, S.C. and she plans this summer to divide vacation between her uncle in Texas and Mrs. Garrett.

“...From the Hallowed Halls of Taylor”

Pat Hardeman-Lewis

Wesleyan has always been a part of my life it seems. I can remember as a small child playing in the halls of "Old Wesleyan", ascending dark stairwells to explore every nook and cranny of that "grande dame" on the hill overlooking Macon, hearing my older sister, Ruth, practicing piano and talking with the girls she brought home from the conservatory, performing on the stage of the old chapel, hearing my father talk with Mr. I. L. Domingos - his colleague in real estate and a gentleman long associated with Wesleyan through the Burden and Stewart families. I remember hot sum-

mer days and play in Washington Park when Wesleyan stood like an obelisk of pride and dignity on College Street. And, yes, I remember when she burned.

The Wesleyan tradition continues in our family. My sister, Juliana, and I both earned degrees at Wesleyan - Julie in French and German and I in Biology. Julie's daughter, Ginger Caldwell, graduated in May with the Class of 1983.

Little did I know upon my own graduation that I would return to join the faculty in 1974, and in 1982 assume the position of Chairman of the Division of Science and Mathematics.

These biology students are preparing for careers in the life sciences.

My interests and concerns for Wesleyan are not, then, "recent" developments. My concerns about admissions, curriculum, development, programs, and financial resources are merely extensions and refinements of a long-standing allegiance. It is my desire now not only to try and strengthen the area in which I am most directly involved but also to work for the continuation of a long tradition of quality education for women.

I have seen over the past nine years at Wesleyan a new "type" of young woman emerging as a graduate. She is more interested in the pursuit of a career than she is eager to set up housekeeping. She is aware of a recession economy. She is goal-oriented and more aware of self-actualization. She is aware of her "rights" in the job market, of anti-discrimination legislation, of minority quotas and the like. She is a modern woman.

The Division of Science and Mathematics which includes Biology, Chemistry, Physics, Mathematics and Computer Science has taken pride in its graduates and their achievements. I am not sure that the Alumnae as a whole are aware of these outstanding young women, and I would like to share with all of you the accomplishments of some of them. As a Division, we try to keep track of our students and what they are doing. Since my tenure at Wesleyan as a faculty member only dates to 1974, there may be some that I have overlooked and I would encourage them to contact me, so that we may update and learn of their continued activities.

To have had such outstanding students in science and mathematics should not really come as a surprise, however, for Elizabeth Tidball stated in the spring issue of *Educational Record* (1973) that graduates of women's colleges were more than twice as likely to have been cited for career achievement than were women graduates of co-educational colleges. She also found in her studies that women's colleges have produced many more women achievers in science and mathematics than have co-educational environments (*Science*, August 1976). Further, Jill Kerr Conway, President of Smith College and a member of the Women's College Coalition, stated that participation in such career-critical areas of study as science and mathematics and economics is far higher at women's colleges than for women undergraduates nationally (*Change*, March 1978).

So, where do we stand today? We are proud of our past students...What about the future? The faculty in science and mathematics at Wesleyan continues to have faith in its present students and sees a vast market of potential students and continued growth for these areas of study not only in the State of Georgia, but in the

region and in the nation as well. This potential market is supported by statistics released recently by the SAT of the College Board. Twenty-two point four per cent (22.4 percent) of the high school FEMALE students in the State of Georgia who took the SAT in 1980-81 and responded to the Question (-61) about first choice of an intended area of study chose "Biological Sciences and Related Areas".

Following are the statistics released by the SAT of the College Board for the State of Georgia, Southern U.S. and the Nation.*
 (* taken from Table 14: Intended Areas of Study-First Choice 1980-81 SDQ Question 61)

	GEORGIA	SOUTH	NATION
Total Female Respondents	16,810	89,914	480,333
Percent of Females indicating:			
Biological Science & Related Areas			
Computer Science	31.7%	33.5%	33.0%
Mathematics			
Potential Recruiting Market of Females for Science and Math	5,328	29,121	158.509

The programs and courses within the Division of Science and Mathematics play a crucial role in the preparation of women for many career areas. Not only do we offer majors in biology,

chemistry, mathematics, computer science, and medical technology, we also serve as the base for preparation for those seeking an Engineering degree through our co-operative Dual Degree Program with Georgia Tech. Our pre-professional programs prepare students to enter the schools of medicine, pharmacy, dentistry, and veterinary medicine.

As we all struggle to meet the challenges of enrollment that lie ahead, know that there is a strong market for science and mathematics. Our needs for updating equipment and facilities should be addressed in order to continue to provide all of our students with a quality experience in the

sciences. We need your support and help as we meet the demands of today's students and send them out into the world as a product of the "OLDEST AND BEST".

Wesleyan Plans Innovative Summer Programs

Wesleyan faculty will be busy providing workshops for Middle Georgia students who would like to challenge their creative talents this summer.

Piano Clinic

June 20-24, the Music Department will sponsor a piano clinic open to teachers and students in Georgia. Marvin Blickenstaff, professor of music at Goshen College in Indiana, will be guest clinician for the clinic. He will lecture, provide instruction, critique and other helpful demonstrations to music teachers and students.

Nancy Dyes, Edward Eikner and John O'Steen, all members of the Wesleyan music faculty, will be providing instruction in music theory, music history, improvisation, solfège and ensemble.

The clinic for teachers will be held June 20-22; students may attend June 20-24.

There will be a welcoming recital and reception June 19 at 7 p.m. Classes will begin Monday June 20 at 8:30 a.m. and will conclude with a performance on June 24 at 11 a.m. There will be an informal lecture-recital each evening.

Tuition is \$70 for teachers, \$60 for students. Housing and meals will be provided at an extra charge.

Board of Managers Report

The revised Bylaws of the Wesleyan Alumnae Association, mailed to alumnae prior to alumnae weekend, were passed at the annual meeting held April 16. A Wesleyan Trustee ad-hoc committee and an Alumnae Board of Managers ad-hoc committee currently are studying the relationship of the Alumnae Association and the College. Amendments to the Bylaws may be necessary as a result of these discussions by the joint committees.

Mary Catherine Collins O'Kelly, '72, has been elected member-at-large to the Board of Managers for the term 1983-1986. Sandra Bell Shipp, '66, has been elected Alumnae Trustee to the Wesleyan Board of Trustees for the same term.

Two rising juniors at Wesleyan, Elizabeth Powell, '85, and Susan Hullender, '85, were awarded \$500 alumnae scholarships for the 1983-1984 academic year.

The clinic is open to students in grades seven through twelve.

Edward Eikner will teach at summer piano clinic.

Writers Workshop

Students who exhibit a talent for creative writing will have an opportunity to work on that talent during the Center for Emerging Writers to be held July 11-August 5. Dr. John Hemphill, assistant professor of education at Wesleyan, will conduct the series of workshops designed for students in grades three through eight. Students will have the opportunity to produce and define original stories and poems. They will share their original work with other students, and the best works will be edited by students and published in a literary arts magazine at the end of the workshop.

The center is divided into sections, "Poem-making and Tall Taling" for grades three through five; and Writing Modern Fantasy and Science Fiction," for grades six through eight.

Tuition is \$125 for the four-week workshop. There are a limited number of scholarships available, based on financial need of the student.

Computer Encounters

Wesleyan's Department of Computer Science will sponsor a computer workshop this summer for 9 to 15-year-olds. The workshop, "BASIC Encounters of the Computer Kind," will be held June 13-24 in the College's Computer Center in Willet Library.

The Encounters will include:

- * Awareness of BASIC computer language
- * Knowledge of commands
- * Flow-charting
- * And Encounters T-shirt

Evelyn Andrews, director of the computer center, will lead the encounters. Nine through 11-year-olds may attend June 13-17; 12 to 15-year-olds may attend June 20-24.

The encounters will be conducted from 9:30-11:30 a.m. each day.

Tuition is \$60 per student.

Bishop Joel McDavid

Wesleyan Hosts South Georgia Conference

The 1983 session of the South Georgia Annual Conference will be held at Wesleyan, June 6 - 10. Bishop Joel McDavid will preside over the daily meetings.

A very important item on the agenda is the election of clerical and lay delegates to the General and Jurisdictional Conferences of the United Methodist Church, which will be held in 1984.

The principal speaker and worship leader for the South Georgia Conference is Dr. Albert Outler, recently retired from the Perkins School of Theology at Southern Methodist University, Dallas. He is a native Georgian, his father having served as minister in South Georgia during long career.

Appointments of ministers to churches will be made in the final session of the conference.

Distinguished Alumnae Honored

Distinguished alumnae Sidney Willis Blackmarr, '54, Sandra Bell Shipp, '66, and Anne McGee Morganstern, '58, were honored at the Alumnae Association annual meeting April 16.

Dr. Anne McGee Morganstern, a 1958 graduate of Wesleyan, Sidney Willis Blackmarr, class of 1954, and Sandra Bell Shipp, a 1966 graduate, were awarded Distinguished Service Awards at the Alumnae Association annual meeting April 16.

Mrs. Morganstern, associate professor in the department of the history of art at Ohio State University, received her bachelor of fine arts degree from Wesleyan and earned masters and doctorate degrees in art history from the Institute of Fine Arts at New York University. A native of Morgan, Ga., she studied further at the Faculte des Lettres in Dijon and the Sorbonne in Paris.

This year she has been senior fellow at the Center for Advanced Study in

the Visual Arts at the National Gallery of Art in Washington, D.C., and there she has begun work on a book on Late Gothic tombs.

An expert in Gothic and Renaissance art, Mrs. Morganstern is part of a national team sponsored by the International Center of Medieval Art which is writing a **Census of Gothic Sculpture in North American Collections**. She also serves on the Midwest Regional Committee of the Mellon Fellowships in the Humanities.

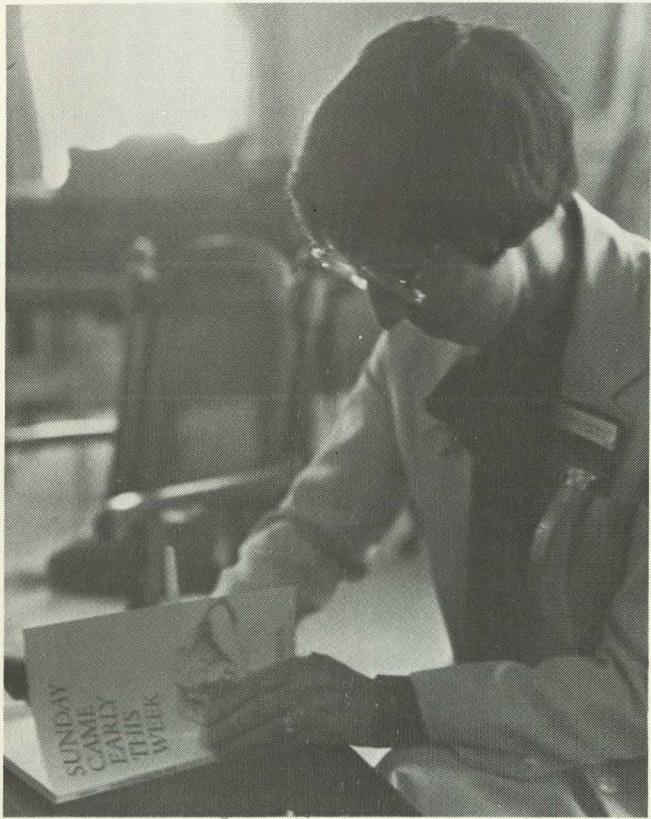

Mrs. Blackmarr, director of the Abraham Baldwin Agricultural College affiliated Arts Experiment Station in Tifton, Ga., will receive the Distinguished Achievement Award for her efforts in bringing the arts to South Georgia. In 1981, she received the

Governor's Award in the Arts in the area of Community Arts Projects.

Mrs. Shipp was president of the National Wesleyan Alumnae Association from 1976-79, and is a past president of the Macon Alumnae Club. She is active in community and Wesleyan activities, including organizing the Kitchen Karavan in 1972 to raise money for the Macon Endowed Scholarship Fund. She currently is on the Task Force for Financial Aid at Wesleyan, and member of the finance committee of the Wesleyan Alumnae Association.

Mrs. Shipp also is on the board of directors of the Symphony Guild and the Macon Little Theatre, and she is a member of the Morning Music Club.

Alumnae Week

Luleen Sandefur Anderson, '58, autographed copies of her book, *Sunday Came Early This Week*, at an autograph party held in her honor April 16.

Your editor enjoys the company of other alumnae perusing gift items and visiting with one another in the Candler Alumnae Building.

1983 graduating seniors participated in the inspiring candlelight service held this year in the Oval Hall.

end Highlights

FRIDAY

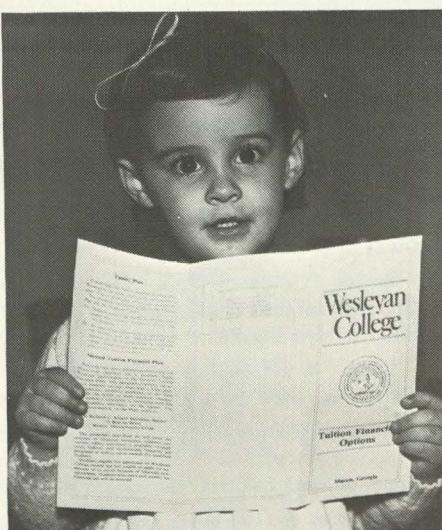

- Alumnae had the opportunity to view Wesleyan's newest multi-media slide presentation which is being used successfully by the Admissions Office for college nights, prospective student parties, and occasional high school visits.
- Candlelighting service was held separately this year in the Oval Hall. Laura Sullivan Barkley, '68, conducted the service inducting the seniors into the Alumnae Association. Dr. Frederick Wilson addressed the seniors with an inspiring message, "Not by Lightning-but by Candlelight." Seniors and candlelighters enjoyed the special service.
- Following candlelighting, a reception was held in the Oval Hall for participants, faculty, and alumnae.
- "I'm a Wesleyan Fan" was the dinner theme in the Anderson Dining Hall which was decorated with wallpaper covered accordian fans. The food was delicious and the company was even grander.
- A delightful concert by Wesleyan's 35 member Glee Club followed the dinner.

SATURDAY

- The morning began with tours of Bradley House, the president's home, and a pre-brunch visit with Ann Hicks, wife of the president.
- Everyone tarried over a wonderful brunch in the Anderson Dining Hall where again the theme was "I'm a Wesleyan Fan." This theme was carried out with purple and white fans advertising "I'm a Wesleyan Fan" as centerpieces on the tables and later as favors to alumnae attending the annual meeting.
- At noon, the annual meeting of the Wesleyan Alumnae Association was held in the Porter Auditorium. Speaker Anne McGee Morganstern, '58, addressed the issue of college students pursuing their talents versus career preparation. Laura Sullivan Barkley, '68, president of the Alumnae Association conducted the meeting.

Betty Stewart Wingfield, '38, and daughter Bitsy Wingfield Dick, '63, enjoyed visiting with one of Mrs. Wingfield's classmates, Ann Munck, '38, Wesleyan English professor.

Reading up on tuition financing options early, Blair Elizabeth Cannon, daughter of Susan Powers Cannon, '74, may be the first student in Wesleyan's class of 2001.

Susan Hullender, '85, and Libbie Powell, '85, received the Wesleyan Alumnae Association Scholarships for Leadership during alumnae weekend.

- An autograph party was held in honor of Luleen Sandefur Anderson, '58, who has written a thought provoking book on teenage emotional problems and suicides, "Sunday Came Early This Week."
- The "Golden Bell" Dinner in the Manget Dining Room on Saturday evening was a highlight for reunion class members observing their 50th or older anniversary. The dinner was hosted by Dr. and Mrs. Fred W. Hicks.

SUNDAY

- Chapel Service in the Burden Parlor closed a perfect weekend with Dr. Frederick Wilson's message "God Doing Something."

Alumnae Clubs and Chapters Meet

Many alumnae groups have been active since the first of the year. Other areas may not have formally met, but have been busy assisting in recruitment of students through the Alumnae Admission Representative program. There are now a total of 107 AAR's in the network working for Wesleyan.

Atlanta

The newly organized Wesleyan College Professional Atlanta Alumnae including alumnae in the 60's, 70's and 80's in the Atlanta area met February 17. Darla Grinstead, '78, is chairman. The group plans to meet quarterly.

February 26, the Atlanta Club sponsored Seminars for Self-Renewal for their annual fund raising project. Proceeds will go toward the Atlanta Wesleyan Endowed Scholarship Fund.

Atlanta Group VI met March 29 at the home of Jane Mulkey Green, '42, with T.V. consumer reporter Sharon Summers (Sharon Tribble, '68) as speaker.

Atlanta Group IV has met monthly on second Saturday with many varied programs. Arline Harris, '24, is chairman.

Atlanta Club Spring Luncheon on May 28 was held at the Women's Commerce Club chaired by Jeanette Loflin Lang, '61. New officers were installed at this meeting for a two year term.

Griffin

On March 30, alumnae editor, Rose Mary McKelvey, and director of alumnae affairs, Frances Van Horn met to make Fall plans with Griffin alumnae at the home of Elizabeth Bowers Bowen, '38.

Dallas-Ft. Worth

Wesleyan librarian, Tena Roberts, '60, joined the alumnae for a luncheon on February 16. Doris Manning, '60, helped with arrangements.

Thomson

Area alumnae gathered at the home of Margaret (Pinkie) Evans Knox, '37,

on March 7 to meet the director of alumnae affairs, the president of the Alumnae Association, Laura Barkley, and admissions counselor, Anne Cook.

Augusta

Area alumnae met at the home of Harriett Laslie Reynolds to view the new Wesleyan slide/sound presentation. Fran Stewart Upton, '67, will chair this group. Laura Barkley, Frances Van Horn and Anne Cook met with the alumnae on March 7.

Ailey, McRae, Mt. Vernon

A meeting of this group was held at the Mt. Vernon United Methodist Church on April 29. The director of alumnae affairs and president of the Alumnae Association met with the group. Rebecca Godwin Peterson, '46, is chairman for the area. They plan to sponsor a visit from the Wesleyan Glee Club.

MARY BULLOCK TERRY, Cordele, Ga., sends her regrets to her reunion class. She lives in the Crane Retirement Home and is getting along well.

Now a retired medical librarian, KATHLEEN McCROAN BARRON and her husband live in Decatur, Ga. Their son is Supervisor and Editor of the Atlanta Bureau of the Associated Press.

GRACE BEATTY FURLOW, Madison, Ga., wasn't able to make the reunion, but sends best wishes to her classmates. Her best news, eight wonderful great-grandchildren!

In 1980 MATTIE ARMOR HALE, West Point, Ga., wrote a book, **One Great Lady**, the life story of her mother, Mary Harris Armor. Mary Harris Armor was the first recipient of an honorary degree from Wesleyan awarded the night her daughter

graduated in 1918. Mary Harris Armor was an Evangel for Temperance, speaking in 48 states and foreign countries.

Wonderful news from MARIAN COOK MURPHEY, Rockville Center, New York, who writes that she and her husband will soon celebrate their 56th wedding anniversary. "I took time out in a busy hectic life to respond," she writes, reminiscing about meeting her English-born husband on the way back from Africa where she lived for a year after graduation. "Keep sending the alumnae magazine!" she writes. "It encourages me! Those beautiful Wesleyan graduates have so much to be happy about - they are greatly

REBECCA CAUDILL AYARS and husband James sent us their January newsletter written to friends from their home in Clark-Lindsay Village, Urbana, Ill. One of Mrs. Ayars' famous books for children has been translated into Japanese. Their letter reflects a still busy lifestyle with many visitors, though activities are limited by her loss of eyesight.

RUTH FLINN HARRELL, Norfolk, Va., was the subject of an extensive article in the **Virginian-Pilot Ledger-Star** on her pioneer theories in the field of nutritional treatment for retarded children. "She is" Linus Pauling says, "among the pioneers in the field." At least eight different hospitals and institutions are exploring her theories in their treatments. Though controversy continually surrounds her research, at 83 she continues to work with the tenacity she claims she learned as a temporary reporter for the Macon Telegraph while a student at Wesleyan in 1918!

CARROLL BOYD WHITLOW and husband Ralph have just returned from a tour of their Methodist Church's literacy project in Costa Rica. Through the years, they have traveled two continents, as her husband's work involved teaching primitive people to capture and domesticate wild bees for their own use. Both interested in local history, their collections of antique quilts, perfume bottles, antique needlework and family baby clothes are being exhibited in several Florida museums.

During the Christmas holidays, Mrs. Heron Iris Kim, Korea, her son and his family visited the Wesleyan campus. Mrs. Kim, who is the daughter of the late INDUK PAHK is President of the Induk Institute of Design, a co-educational junior college in Seoul, Korea. This was her first visit to Wesleyan. Her son and his family live

in Maryland. Mrs. Kim is the principal of the Berea-in-Korea school founded by her mother in 1967. Mrs. Kim thanks alumnae and other friends for this financial support in the Induk newsletter.

Since retirement, MARGARET SPRAYBERRY HERRIN, Dalton, Ga., and her husband have traveled by car into every state (except Alaska and Hawaii) plus Canada and Mexico. Time at home is spent in volunteer and social clubs as well as in church work.

During April, ELIZABETH BRAGG STURDIVANT, Westminister, Md., and her husband attended a homecoming event at Union College in Kentucky where he had his first teaching position after earning his doctorate. His students were invited to come for his homecoming. On the way to Kentucky they visited Wesleyan classmate, OLIVIA McCARTY GAINES '28 in Dalton, Ga. Daughter Betty teaches voice at Roanoke College and had just received her master's degree in performing voice from Radford University.

'30

SARAH GODLEY EDWARDS, Savannah, Ga., attended a recent alumnae meeting in Savannah and reported that she is very active as a private academic coach, tutoring in physics, chemistry and Latin.

One of the class of '33 who couldn't get back for the reunion, TSOO YI-

ZIA, Shanghai, China, sends greetings to all her classmates. Through the years she has been active in the YWCA in China, serving as General Secretary and then as the head of the city department of the national YWCA of China. She is retired now and lives with her youngest son and his family. She rejoices that her great niece, Jannie Chien is now at Wesleyan.

We received a wonderful thank you letter from KATHERINE SNOOKS WALKER who says she really enjoyed the 50th reunion. She says that being called Snooks rejuvenated her spirits immediately. She recently published a genealogical book *Snooks 1733-1979*. She also joined the Wesleyan Spring Tour to the Netherlands this year.

MIRIAM TRIMBLE RHYNE, College Park, Ga., and husband Plato have enjoyed extensive traveling since his retirement from the Army and then from Southern Bell.

SARA BESS RENFROE MEGAHEE, Chattanooga, Tn., made a recent trip to the Holy Land. "It was very inspiring and informative," she reports.

ELIZABETH GOOD SCHILLING, Hollywood, Fl., summed up her last 50 years with one wonderful line - "A rich full life as the wife of an Episcopal priest."

ELIZABETH VORHAUER VERNON, Orlando, Fl., writes "Wesleyan gave me my standards, values, and spiritual inspiration and the incentive to work with others toward a fulfilling and rewarding life." She hopes classmates will call if they come through Orlando.

"It is amazing how much younger we are than the "Golden Girls" who returned when we were students!" writes MARGARET CANTRELL ISAACS, Columbus, Ga., about the reunion. "I thought they were ancient - but I feel that we Golden Girls this year are in our prime."

RUTH BAILEY GARNER and husband Paul live in Tuscaloosa where he was Dean of the Business School at the University until his retirement.

to the Board of Trustees of the YWCA.

A previous commitment kept "PETE" HIGHSMITH WARE from attending the reunion. "Wasn't what we had beautiful?" she writes. In remembering her Wesleyan days she sends some favorite lines of poetry:

Beauty seen is never lost;
God's colors all are fast -
The beauty of the past we've known -
Into our life has past!

Long standing plans to attend the DAR's Continental Congress in Washington kept VIRGINIA PERRY BUCKNER, Daytona Beach, Fl., from joining her reunion class. She writes that she and her husband enjoy travel and their home. Their daughter teaches school in Orlando and son John is an ophthalmologist.

CAROLYN LAWTON HARRELL has turned author since her retirement as a writer and editor who published scientific and technical proposals, progress reports and promotional brochures for the research center of the U.S. Army Missile Command in Huntsville, Ala. She is now documenting the primitive American South. Her husband is assisting her with research throughout the South. "Like Grandma Moses," she observes, "I've discovered how much satisfaction and challenge and fun there is in 'creating' something on a subject of my own choosing."

"We are proud of our 50% attendance after those 50 years!" boasts DOROTHY MANGET HOGAN, Hermitage, Tn. Just say that I was there with all the other "fans" and had a beautiful time.

"I enjoy traveling with my husband who has been retired from Georgia Tech for 7 years after being a math professor for 32 years," reports CAROLINE RADFORD BROOKS, Atlanta, Ga.

Excerpts From

On the Utility of a Sense of Beauty

by Anne McGee Morganstern

Speaker, 1983 Annual Meeting of the Wesleyan Alumnae Association

The specter of unemployment is constantly before us these days, whether in relation to ourselves, our children, our students, or the world at large... In 1954, at 18, the threat of meaningless work was far more frightening to me than unemployment, and I think it should be frightening to 18 year-olds today... I believe that young people should pursue their talents single-mindedly for at least four years of college.

How then do we face this issue intelligently in counselling our sons and daughters and our students? First of all, I think it is fundamental that they find out early where their talents really lie. Interest—or even better, pure love—is probably equally important. For one's heart has to be in it, for one's work to be any good. My own definition of happiness in work is putting all you've got into an endeavor and finally making or doing something really worthwhile. I think the greatest mistake in our society's attitude towards work is its tendency to measure success in terms of profits rather than in terms of creativity. For ultimately I don't think we can posit success in our professions or profits or even on position and find joy in them. The real pleasure, if there is to be any, has got to be in the work itself.

What, then, if one wants to paint, to write, or to indulge in some other impractical career? My answer has to be that such a question is not only biased, but based on a wrong-headed notion. For painting and sculpture like music and many other human achievements, are but manifestations of something much more profound and more important, the source of all constructive human creativity. What, then, is this mysterious source that may produce art, or may just as bountifully produce food or haberdashery? That may insist on cleaning out attics, but just as insistently demand that an old rocking chair be kept and restored? I may be simple-minded, but my preferred definition of this elusive quality is "a sense of beauty".

Learning to paint and sculpt may develop a sense of beauty, but looking

under a microscope might do as well. Even measuring tree rings, as the dendrochronologists do, can be an aesthetic journey, if one has an aesthetic sense.

What then is a sense of beauty? Can it be defined in a century in which the notion of art itself is constantly in question? I think a sense of beauty is awe in the presence of God's creation. It might be also described as spiritual awareness of the natural world. It seems to me that this is why the greatest visual art has usually been a parallel to equally great achievements in philosophy, religion and natural science. I recently heard Art History defined as the natural science of the spirit, and that seems to me to sum up the best that my discipline has to offer. For the basic intention of Art History is to analyze and interpret works of art in the cultural context in which they were made. It is a kind of reverse process.

For the production of the objects that we classify as art involves the transference of thought or spirit into a concrete form. The process of this transference is an intellectual achievement of no mean degree. It follows, then, that the fine arts should not be separated from the general education of the mind. When practiced in the

best sense, all the disciplines that we characterize as "pure science" like mathematics, literature, philosophy, music and painting, are just different branches of intelligence. That is why a fine arts school is a viable and vital part of a great college or university. And that is why I would argue that the study of painting cannot be described as impractical any more than any other pure science can be.

What then about employment? Ultimately, I must take my position with the traditionalists who have always insisted that an education is not the same as job training. Job training is apt to be obsolete within ten years. But an education in the best sense is the development of a mind that can adjust to the exigencies of a changing technology and at the same time hook up with the larger universe, so that while an educated person may function competently in the trivial cares that any job entails, he or she has some reserves of the spirit that keep him alive and creative when he has to confront the big issues or the big opportunities.

Finally, I don't think that a sense of beauty is innate, or can be easily acquired in isolation, but is rather passed on from one generation to another. I think I got it largely from my mother, and she gave it to me neither consciously nor systematically, but by surrounding me with a garden that she tended with the same care that she tended her family. Occasionally she also urged me to interrupt my reading to go out and look at the moon. Or she simply set the example with wonder at natural events like thunderstorms, which she experienced closely by stationing herself on the porch.

Wesleyan College helped me to intellectualize my mother's sense of beauty and began to form the foundation needed to eventually pass it on to generations of students. She also exposed me to the liberal arts tradition, with its ideal of service. Had I gone to an art school, I would probably have become the fashion illustrator that I aspired to be in 1954. Instead, I began to understand how the visual arts fit into the universal scheme of things. That is what I owe to Wesleyan College and its faculty from 1954 to 1958, and why I am back here to "thank you."
